

Serial No. 10/634,188

IN THE CLAIMS

Claim 1 (currently amended): A card corner cutter including:

- [[☐]] a body defining a chamber with an open upper end for receiving scraps;
- [[☐]] a first blade secured to the body and located next to the chamber;
- [[☐]] a handle pivotally mounted on the body; and
- [[☐]] a second blade ~~secured to~~ movable past the first blade by pivoting of the handle.

Claim 2 (original): The card corner cutter according to claim 1 wherein the chamber includes an open lower end for releasing the scraps, and the card corner cutter further includes a cover for closing the open lower end of the chamber.

Claim 3 (original): The card corner cutter according to claim 2 wherein the cover is pivotally attached to the body.

Claim 4 (original): The card corner cutter according to claim 3 further including a tube formed on the wall of the chamber and a column formed on the cover for insertion in the tube so that the cover firmly closes the open lower end of the chamber.

Claim 5 (original): The card corner cutter according to claim 3 wherein the cover is a portion of a tray attached to the body.

Claim 6 (original): The card corner cutter according to claim 5 further including a tube formed on the wall of the chamber and a column formed on the cover for insertion in the tube so that the cover firmly closes the open lower end of the chamber.

Claim 7 (original): The card corner cutter according to claim 5 further including a plurality of tubes formed on the body and a plurality of columns formed on the top of the tray for insertion in the tubes so that the tray is attached to the body.

Claim 8 (currently amended): A card corner cutter including:

- [[☐]] a body defining a chamber with an open upper end for receiving scraps;
- [[☐]] a first blade secured to the body and located next to the chamber;
- [[☐]] a second blade pivotally mounted on the body; and
- [[☐]] a handle pivotally mounted on the body for pushing the second blade.

Serial No. 10/634,188

Claim 9 (original): The card corner cutter according to claim 8 wherein the chamber includes an open lower end for releasing the scraps, and the card corner cutter further includes a cover for closing the open lower end of the chamber.

Claim 10 (original): The card corner cutter according to claim 9 wherein the cover is pivotally attached to the body.

Claim 11 (original): The card corner cutter according to claim 10 further including a tube formed on the wall of the chamber and a column formed on the cover for insertion in the tube so that the cover firmly closes the open lower end of the chamber.

Claim 12 (original): The card corner cutter according to claim 10 wherein the cover is a portion of a tray attached to the body.

Claim 13 (original): The card corner cutter according to claim 12 further including a tube formed on the wall of the chamber and a column formed on the cover for insertion in the tube so that the cover firmly closes the open lower end of the chamber.

Claim 14 (original): The card corner cutter according to claim 12 further including a plurality of tubes formed on the body and a plurality of columns formed on the top of the tray for insertion in the tubes so that the tray is attached to the body.

Claim 15 (original): The card corner cutter according to claim 8 wherein the second blade is shaped as a triangle including a hypotenuse put in a recess defined in the body.

Claim 16 (new): The card corner cutter according to claim 3 wherein the second blade is secured to the handle.

Claim 17 (new): The card corner cutter according to claim 2 wherein the second blade is secured to the handle.

Claim 18 (new): The card corner cutter according to claim 1 wherein the second blade is secured to the handle.

Claim 19 (new): The card corner cutter according to claim 1 wherein the second blade is pivotally mounted on the body.
